

Housekeeping DO'S and DON'TS when working in mercury cell rooms

	Wear protective clothing and gloves	Don't eat, drink or smoke in the work place or whilst wearing work clothes/protective clothing	
	Change work clothes regularly and immediately when contaminated	Don't mix workwear with personal clothing	
	Ensure good ventilation and wear a clean respirator in contaminated areas	Don't carry tobacco when working	
	Regularly inspect working areas and clean up any spills	Don't use a high-pressure water hose to clean floors	
	Shower before going home	Don't leave mercury uncovered Use a lid or water	

Euro Chlor helps chlorine producers improve safety standards whilst conducting science, advocacy and communications programmes. The federation plays a key communications and representation role on behalf of its members, listening and responding to society's concerns about the sustainability of chlorine chemistry.

All advice, information and guidance given is accurate to the best of Euro Chlor's knowledge and is given in good faith. For more information on chlorine visit our website at www.eurochlor.org
